AL-FAYHA PRECAST PRE QUALIFICATION 2016

Al-Fayha Group

FAYHA.....

The Ancient Name of Basra

SECTION 1:- INTRODUCTION

A) **Who Are We?: AL-Fayha Group** of Companies is one of the leading Precast Concrete Company in the South & Middle Regions of Iraq with a long standing and established reputation for servicing the Industrial Construction Development Sector of Iraq through its long experience in Precast Concrete elements manufacturing and installation.

AL-Fayha Precast has been providing services to these sectors in the region over 24 years. Hence, today the experience absorbed over these years enables to qualify the company to provide infrastructural construction civil services to Oil & Gas field Companies.

AL-Fayha Precast Commitment of which totals client satisfaction begins with its vision of becoming the Preeminent Leader of fast-track of precast and civil services construction in the Oil & Gas infrastructural projects by delivering a total solutions to its clients.

FAYHA.....

The Ancient Name of Basra

Al-Fayha obtained IMS Certificates of (ISO-Quality 9001-2008, ISO OHSAS-18001-2007 and ISO Environment 14001-2004) as detailed here below:-

B) Vision, Mission & Values.....

OUR VISION:-

Our vision is to become the Regional Leader in Precast Concrete Building Solution.

OUR MISSION:-

Our Mission is to provide our clients with the highest quality services within the stipulated timeframe of the project. We shall achieve this by

FAYHA.....

The Ancient Name of Basra

creating a well recruited Project Team who are qualified each in their respective field of specialization.

OUR VALUES:-

Our values shall remain basic & fundamental through a guiding light in our dealings and cooperation Internal & External. There will be the uncompromising foundation upon which we build our values.

- **Integrity:** We possess the talent to maintain good and high standard level of mutual relation with our clients.
- **Reliability:** We own the ability to deliver on what we promise, without exception.
- **Accountability:** Yes we are, and have the strength to be responsible for our own actions and decisions.

Competitive Advantage:-

Our advantages were achieved from being committed to meet our client's expectation and satisfaction through hardworking and transparency in the Project Management.

FAYHA.....

The Ancient Name of Basra

C) Al-Fayha Foundation:-

Al-Fayha was founded in **21st November 1991** and it is a company established under the laws and regulations of Iraq, registered with Ministry of Industrial under the Reg. no. **4469...** with a Commercial Registration no. **88297 ...**and Tax Registration no. **900057008....**

FAYHA.....

SECTION 2:- AL-FAYHA QUALIFICATION

A) What Do We Do ?....

AL-Fayha Precast is specialized in various construction services and Turnkey Building Solutions for big construction projects, while it still remains as one of the leading **P**recast **C**oncrete **H**igh **Q**uality **M**anufacturer of various types of precast concrete elements across the South and Middle Regions of Iraq. The Company has also the in-house capabilities to develop a project from conception/infrastructural through constructional... tocompletion.

FAYHA.....

The Ancient Name of Basra

B) What Are Our Qualifications....?

<ul style="list-style-type: none"> Civil Works: 	Site survey, de-watering, excavation, soil replacement, backfilling, compaction, grading and(or) leveling).
<ul style="list-style-type: none"> General Construction: 	Construction & repair of bridges, construction of precast huge buildings, malls, schools construction of Mosques as per the traditional construction fashion, construction of First Dry Dock in Iraq in the river of Shat Al-Arab.
<ul style="list-style-type: none"> Manufacturing & Supply of all types of Concrete Elements: 	Precast concrete piles, wall panels, pipe sleepers, hollow core slabs, T-walls & jersey barriers, girders, Manholes, kerbstone, perimeter fence, guard tower, traffic & waiting umbrella, U-Culvert.
<ul style="list-style-type: none"> General Steel Structure Manufacturing. 	Specialized in welding, cutting, CNC Plasma cutting and processing of all steel Structure. Manufacture of moulds, steel pile caps, steel sheds, etc...
<ul style="list-style-type: none"> Supply of RMC: 	Supply of RMC and Operation of Batch Plant of different capacity, which includes (Fixed Batch Plant) and erection of (Mobile Batch Plant) at project site, as per the project requirement.
Hea Machinery Rental Services:	Rental of different types & capacity of heavy machinery for construction and transportation such as:- cranes, tower cranes, Forklifts, compactors, hammers & vibration hammers, truck mixers, excavators, concrete pumps, bulldozers, graders, shovels, water tank vehicles, etc.
<ul style="list-style-type: none"> Rental of Warehouses & Laydown Areas with Logistic Services: 	Rental of warehouses, insulated warehouses of each 1000m2 for the storage of different types of materials, such as chemicals, telecommunication Units, pipes, air conditions, oil & gas field materials, etc. Rental of Laydown area of 10,000m2 for the use of different types of services, such as loading and offloading of heavy equipment.

FAYHA.....

The Ancient Name of Basra

SECTION 3:- COMPANY RESOURCES

A) AL-FAYHA Compound Covering Areas

AL-Fayha Group Compound covers an area of 350,000m²
Which consists of the following:-

- Administration Facility & Material Test Laboratory area of **594m²**
- Precast Fabrication area of **7,833m²**
- Production lines area of **12,159m²**
- Pre-stress Factory area of **8970m²**
- Central Batch Plant area of **2023m²**
- ELBA Batch Plant: **9,427m²**
- ELCON Batch Plant: **2,474m²**
- Main store yard for the finished products area if **10,200m²**
- Steel Structure Factory area of **1,500m²**
- Sandwich Panel Factory area of **1,742m²**
- 10 insulated warehouse, each of **1000m²**
- An open laydown area of **10,000m²**
- Water distilling area of **3771m²**

FAYHA.....

The Ancient Name of Basra

B) Precast Factory & Production Plants Owned.....

AL-Fayha Group; Owns a very big **Precast Factory** which consists of two integrated **Production Plants** for precast concrete fabrication and pre-stressed concrete fabrication as follows:-

1. Main **P**lant of **12** lines (for Precast Elements Fabrication)
2. Secondary **P**lant of **3** lines (for Pre-stressed Concrete Elements)
 - Two lines for Hollow Core Slaps.
 - One line for Girders.

Our Pre-Cast Concrete Factory also extends to two store yards for finished products:-

- Main open yard of General Store in front of the Factory; and
- The sub open yard storage at the behind.

FAYHA.....

The Ancient Name of Basra

C) Group Owned Batch Plants

AL-Fayha Group; owns more than ten Concrete Batch Plants of different capacity, which includes fixed and mobile batch plants in its compound and in different areas in the South Region for the execution of various RMC supply works to project sites.

FAYHA.....

The Ancient Name of Basra

In house **F**ixed **B**atch **P**lants include:-

Elba Batch Plant:-
Fix/Wet
Capacity: 60m³/hour

TEKA
Fix/Wet
Capacity: 120m³/hour

ELKON
Fix/Wet
Capacity: 120m³/hour

FAYHA.....

The Ancient Name of Basra

Out Door Operating Batch Plants Include: -

<u>Model</u>	<u>Capacity:</u>
ELKON Mobile/Wet	60m ³ /hour
CIFA Mobile/Wet	60m ³ /hour
Euromec Mobile/dry	60m ³ /hour
Ime Fix/Wet	80m ³ /hour
Sapk/Mobile/dry	60m ³ /hour

FAYHA.....

The Ancient Name of Basra

D) Group Owned Heavy Machinery & Equipment

Our **M**achinery **D**epartment is one of the leading Heavy Duty Machinery providers for Civil & General Construction works in South of Iraq. These Machineries are part of the group resources and since 1990 our group is providing rental services of such Heavy Duty Machinery to Local and International companies and projects. These machineries are mainly used for our group projects and also hired to other Companies projects.

SECTION 4:- AL-FAYHA QC DEPARTMENT

Al-Fayha Precast QC Department

AL-Fayha Group; has its own well-equipped laboratory in which the company executes all QA/QC activities on daily basis through its daily production activities and with all ongoing projects execution.

The Company has a highly qualified Lab Technicians, Inspectors and Raw Material Test Engineers whom are engaged in the daily supervision, inspection and testing of raw materials prior to its use for production.

Quality Assurance tools are implemented in compliance with the Company Quality Plan, as per the International Standards, and according to the Project Specifications.

FAYHA.....

The Ancient Name of Basra

The Company provides *Third Party Test Certificates* to all its clients and projects for raw material and Cube Test through Private and Governmental Certified Construction Laboratories.

The laboratories that our Company deals with are the following Government and Private Labs:

1. **University of Basra, Civil Engineering Dept. (Construction Material Lab).**
2. **(NCCL) National Center for Laboratories and Construction Research (Construction Material Lab).**
3. **Al-SAYAB Engineering Lab for Construction Tests (Private).**
4. **Basra Construction Lab (Private).**
5. **Al-Emmar Lab. (Private).**

FAYHA.....

The Ancient Name of Basra

We are providing inspection at every stage of the production; starting from raw material test prior to use for production....to concrete batching monitoring....to casting process...then performance of Slump Test.

Lab Performed tests include:

- 1- Fresh concrete testing & Monitoring, such as Concrete Slump Testing.
- 2- Laboratory testing of hardened concrete, "Cube Test" of various ages; such as: "Cube age of 3 days", 7-days, 14 days, 21 days and 28 days.

FAYHA.....

The Ancient Name of Basra

We have a qualified QC engineers that determine the compression strength; through Aggregate Testing which includes :-

- Tests of geometrical properties of aggregate sieve analysis method;
- Tests for mechanical & physical properties of aggregate.

Our QC Engineers manipulate and design a high quality **Mix Designs** for various concrete grades (OR) according to the requirement of the clients for specific project.

FAYHA.....

The Ancient Name of Basra

SECTION 5:- AL-FAYHA FINANCIAL INFORMATION

Al-Fayha produces Audited Financial Statement on an annual basis. Audited by International Companies such as Ernst & Young and KPMG (Kawasmy & Partner Co.) It is considered confidential and will be made available upon request.

Al-Fayha has Credit Capacity to issue Bonds to all projects awarded.

Al-Fayha has Excellent Financial Status with its Bankers and hence boosts Excellent Credit Facilities through these banks.

Al-Fayha Precast Co. is a client to the following Banks:-

Banks Address in Iraq	Corresponding Banks Address
TRADE BANK OF IRAQ (TBI) 608 AL-YARMOUK DISTRICT, STREET No. 1 BUILDING No.20, BAGHDAD- IRAQ	JP MORGAN CASES BANK. N. A New York, N. Y US SWIFT CODE: CHASUS33XXX

FAYHA.....

The Ancient Name of Basra

SECTION 6:- HEALTH, SAFETY & ENVIRONMENT DEPT

Al-Fayha Group, has a comprehensive Health Safety and environment (HSE) Management System implemented to ensure the well-being of all employees. The management is also committed to the successful execution of all projects and the establishment of an accident free record.

For the execution of projects, the HSE System is specific to the requirement of each project; the HSE Plan is then developed, implemented and maintained throughout the project life span.

The HSE Plan ensures that all personnel including sub-contractors are aware of, and committed to the system.

(Daily Tool Box Activity)

FAYHA.....

The Ancient Name of Basra

SECTION 7:- HUMAN RESOURCE DEPARTMENT

Al-Fayha has currently over **512** employees of which **138** are Permanent staff and **149** Contract Staff working in the Management, Administration, Engineering, Financial and Sales & Marketing Depts.

Other **225** are daily basis employees that include skilled and unskilled staff who works in the Manufacturing Factory and Projects Field Operations. The Personnel Dept. is responsible for recruiting, training, promoting, evaluating and the development process of the **H**uman **C**apital of our Company (from hiring, training, promoting to....professionalism).

FAYHA.....

The Ancient Name of Basra

SECTION 8:- SALES & MARKETNG DEPARTMET

The **S**ales and **M**arketing **D**epartment task is to promote the Company towards the International Engineering and Construction Companies by creating and maintaining links with clients, and to secure the flow of leads until converting the leads into projects through negotiating, estimating bidding and finally signing a Project Contract. After Securing a Project Contract, it hands over the Project to the **P**rojects **M**anagement **D**epartment, which handles the Project *from awardingto execution and....to Completion of the Project.*

Above is one of our Projects awarding event by Samsung Engineering & Construction Co. Ltd.

FAYHA.....

The Ancient Name of Basra

SECTION 9:- PROJECT MANAGEMENT DEPARTMENT

The **P**rojects **M**anagement **D**epartment is responsible for the Management of Projects by Engineering wise, Administrative wise, and the execution of field works by ensuring that the Project meets the International Standard and to the required specifications of the client.

The **P**rojects **M**anagement **D**epartment has a highly qualified Team, who are diligent, dedicated and well experienced in handling, executing and managing of every projects awarded in a professional way.... Our Projects Team Slogan is (**QUALITY, SAFETY & MILESTONE TIME**).

SECTION 10:-AL-FAYHA LATEST PROJECT PROFILE

A) KAFZA-II FOR OIL STORAGE TERMINAL / EPC PROJECT.

Client : SKA Energy Holding Co. Ltd.
Project Name : Oil Storage Terminal_ KafzaII
Sub-Contractor : Al-Fayha Precast Company Ltd.

Date of Contract : 10th June. 2015
Completion Date : 10th Dec. 2015
Location : Khor Al-Zubair, Al-Basra, Iraq
At Free zone

Scope of Work : Procurements & Construction
Of Cast in Situ Piles
Foundation For Storage
Tanks at Kafza-II, Iraq

FAYHA.....

The Ancient Name of Basra

A) Al-Zubair Electrical Power Station Project:

Client : Ministry of Electricity

Main Contractor : SHAMS AL-SABAH Co. Ltd

Sub-Contractor : AL-FAYHA PRECAST Co. Ltd.

Contract Date : 8th Jan., 2015

Completion Date : 26th April; 2015

Location : Al-Basra – Al-Rumaila

Scope of Work : Manufacturing of Precast T-walls to Supply (3,500 Pieces), for Security Fence.

FAYHA.....

The Ancient Name of Basra

B) China Geo-Engineering Ltd. / CGC IN IRAQ

Client : Ministry of Oil.
Main Contractor : Nature Gas Plant Project in Missan
Sub-Contractor : Al-Fayha Precast Company Ltd
Date of Contract : 10th May, 2015
Completion Date : 20th June, 2015
Location : Missan-Iraq
Scope of Work : Manufacturing, Transportation and
Installation of Precast Piles.

FAYHA.....

C) Iraq Crude Oil Export & Expansion Project (ICOEEP) at Fao Island:

Client : South Oil Company (SOC)

Consultant : Foster Wheeler

Main Contractor : Leighton Offshore

Sub-Contractor : Una E&C

Completion Date : 30th June 2012

Location : Al-Fao Island

Type of Work : Civil Works

Scope: Beach Valve Station (BVS) & Al-Fao Station

(Pipeline Works at Fao)

This Project is part of the **Crude Oil Export Pipe Lines Expansion** at Al-Fao.

The Project is divided into two Phases: (Phase-I & Phase-II).

1. CIVIL WORKS FOR BVS :-

• Earth Works: -

- Site Clearance and preparation;
- Site stripping, grading & leveling;
- Cutting/Filling & Compaction;
- Dispose of Surplus Materials; Road Access: -
- Cutting & Filling, Road Marking, Traffic Signs;
- Precast Kerbstone impeded on 20mm thickness;
- Other Civil Works: -
- Surface & Drainage; Berm & Surface;
- Fence Works; Gate works & Lighting; Sub-Station, Piling, Gate Valve Foundation;
- Pipe Supports, Access Platform; HPU Cabinet Shelter; Protection.

FAYHA.....

The Ancient Name of Basra

- **CIVIL WORKS FOR FAO SUB-STATION:**

- **Earth Works: -**

- Site Clearance and preparation;
- Site stripping, grading & leveling;
- Cutting/Filling & Compaction;
- Dispose of Surplus Materials;

- **Road Access: -**

- Cutting & Filling;
- Road Marking, Traffic Signs;
- Precast Kerbstone impeded on 20mm thickness.

(Metering Skid at Al-Fao)

- **Other Civil Works: -**

- Surface & Drainage;
- Berm & Surface;
- Fence Works; Gate works & Lighting
- Sub-Station, Gate Valve Foundation;
- Pipe Supports, Piling, Road Crossing;
- HPU Cabinet Shelter; Access Platform, Protection & Trenching.

(Pipe Support at Al- Fao Station)

- **Foundation Woks:-**

- Metering Skid Foundation;
- Metering Skid Shelter Foundation;
- Metering Skid Installation;
- Diesel Power Generator Foundation;

(Diesel Tank at Fao Station)

D) Shat Al-Arab Hotel Construction at Shat Al-Arab River (Presidential Palace):

Client : Basra Governorate
Main Contractor : Shapoorji Pallonji Mid-East Co.
Sub-Contractor : Al-Fayha Precast Company Ltd
Completion Date :
Location : Shatt Al-Arab
Type of Work : Design & Built (Turn Key),
Shatt Al-Arab Hotel Project
Scope : Test, Supply & Installation of
Precast Piles.

Al-Fayha is Subcontractor for the execution of Test, Supply and Installation of Precast Piles for the hotel. The Test of Piles was executed by Al-Fayha through its Subsidiary Co. Al-Watania for Engineering and Contracting Co. Ltd.

Pile Tests include; (PDA, Compression, Tension and Lateral Tests), of which Certified Reports are issued.

SECTION 11:- AL-FAYHA SUBSIDIARY COMPANIES

AL-Zubair Steel Industrial Company is one of the leading Steel Industrial Companies in Iraq. It was found in

1995 and has achieved its reputation since then, by applying.

The Modern Technology of Steel Industrial World through it is well qualified Technicians and Engineering Team.

The company uses the latest Machinery Equipment and engages the suitable technology required for each of its products, which enables it to meet the International Standard Quality Requirement and hence could be able to provide a faster and more efficient solutions to its clients.

It is specialized in welding, cutting, CNC Plasma Cutting and Processing of all types of Steel Structure. Its products include and not limited to the below:-

General Steel Structure;

Erection of Warehouses and Sheds;

- Manufacturing of Steel Molds and Pile Caps; Fabrication of Silos in various sizes;

FAYHA.....

The Ancient Name of Basra

National Engineering and Contracting Company Ltd.

It was established on 27th January 2008 as a subsidiary Company of Al-Fayha Group of Companies. Trade Reg. no. 11893.

It is specialized in Civil Engineering works and General Construction, it has participated many civil construction projects in various Governorates in Iraq, which includes the construction of bridges, mosques, large buildings & malls, construction of schools & hospitals.

National Engineering Co., has participated in the construction of the First Dry Dock in Iraq in the river of Shat-Al-Arab-Al-Basra, which accepts vessels up to 3000ton and helps domestic transportation in the river.

Many of Civil work projects executed includes:

- Khalid Bin Waleed Bridge in Basra;
- Mohammed Al-Kassem Bridge in Basra;
- Al-Mossaiaab Bridge in Karbala;
- Om Al-Douw's Bridge;
- River Al-Qaraf Bridge;

It has also participated many other projects in many Governorates of Iraq, such as:- Samarra Province Project, digging the main line in the size of 1.6mc and from 5m-8m depth in the rocky area for joining Drain-Network in Samarra Province in the Central Part of Pure Filtration, which Includes work of smashing stone stages by using hydraulic digger and explosive materials with supporting and pull out of underground water, and the construction of concrete mainline in the depth of 1,750m long.

FAYHA.....

The Ancient Name of Basra

National RMC Co., (for Ready Mixed Concrete).

The quality of our Ready Mixed Concrete is based, to a large extent, on the component of the materials used in the manufacture of the concrete.

We select component materials from an inventory of a number of component materials to be used in the production of our concrete. Component

materials are stored at our facilities it includes: cement, fly ash, silica fume, concrete admixtures, fine aggregates, coarse aggregates, fibers, color, and water.

Our component materials come from a number of different suppliers. We consider our suppliers to be a critical part of our business and we work closely with each supplier to enhance the quality of our products. We educate our suppliers on the relationship between the consistency and quality of their products (inputs) and the consistency and quality of our products (outputs).

CERTIFICATE OF COMPLETION

This is to Certify that Al-Fayha Precast Building Co. Ltd., have executed the subcontract under **EPC for HV Power Transmission System in the Zubair Oil Field in Iraq.**

The Scope of Work includes, "EPC for HV Power Transmission System Plant Project in Iraq, Piling Works for Hammam Mishrif Substation" consists of manufacturing, delivery and driving of precast piles and necessary required testing for precast piles.

During the execution period of the works, Al-Fayha showed professionalism, diligence and performed the contract works in accordance to the Technical Specification stipulated in the Project Contract.

Al-Fayha have successfully completed the above works, and we gratefully hope to work with Al-Fayha for other projects in the future.

We do not hesitate to recommend them for any similar works that they may seek to contract with any organization in the future.

Sincerely,

For the Company (MİTAŞ ENERGY AND METAL CONSTRUCTION INC.):

 MR. Altan Kaya Altay
